New Hosting Services

Mississauga, Ontario (November 30, 2001) – LeadSource Consultants Inc., the international provider of networking solutions, today announced in partnership with eHost.com a world-class Shared Hosting service for individuals and businesses clients. The technology and services platform operates on the infrastructure of four data centers, over 250 servers, and bandwidth of 50 megabits per second. LeadSource considers network security, redundancy and uptime to be of critical importance and maintains one of the most highly respected backend systems. A thorough escalation path ensures that an executive is notified after 30 minutes, 24 hours 7 days per week. The service will be of tremendous value to entrepreneurs, business professionals and small businesses.

“This shows our commitment to the small business market, and we believe this service will decrease a company’s costs for hosting services by thousands of dollars a year,” said Adam Mikolajewicz, President of LeadSource Consultants Inc. In order to take advantage of the Shared Hosting service, visit the company’s Web site at leadsource.ehost.com.
